

3rd INTERNATIONAL CONFERENCE

# NO TO MILITARY BASES & WARS

FRIDAY, 28 JUNE 2019  
STOPPRAMSTEIN CAMP, 66879 STEINWENDEN, GERMANY  
(COORDINATES FG9G+88 STEINWENDEN)

We live in a time of wars and violence. The armament race has been growing, especially among the NATO countries. Their goal: 2% of country's GDP for war and war preparations. Foreign military bases play an important role in the policy of confrontation: they are a crucial element for the preparation of yet new wars, the promotion of regime changes and the nurture of repression. While the USA has, by far, the highest number of military bases outside its territory (currently over 800), countries such as the UK, France, Russia and China also rely on military bases to project and enlarge their power. We believe that sustainable peace and international security are best achieved by pursuing an approach of common security that is based on cooperation, trust, understanding, diplomacy and respect. Foreign military bases are not compatible with this vision: they represent constant threats of military action and the subsequent destruction that war casts over human life, nature, environment and infrastructure.

Between 23 and 30 June 2019, for the 5th year, a series of actions will be promoted to protest the continuation of the Ramstein Air Base - one of the biggest US-American military basis in the world, located in Germany. On this occasion, the campaign "Stopp Air Base Ramstein" - together with the International Peace Bureau (IPB), the "No to War - No to NATO International Network" & the European Left - invites you to the *International Conference "Wars and Military Bases"*, taking place on 28 June at the RamsteinCamp (FG9G+88 Steinwenden, Germany). The meeting will be an opportunity for the peace movement to analyse the current international political situation, to report on actions around the world, and to discuss future actions and projects.
